

Kat Delaney

ksd8518@g.rit.edu | 860-944-6977 | Glastonbury, CT | www.linkedin.com/in/kat-delaney

EDUCATION

Bachelor of Science in Computer Science, *Rochester Institute of Technology*
GPA: 3.695 | *Magna cum laude* | Presidential Scholar

08/2022 – 08/2025

SKILLS

Programming Languages: Java • Python • C • C# • JavaScript • TypeScript • SQL	Frameworks & Technologies: React • Angular • HTML • CSS • Docker • Git
AI & Data: Mistral • Prompt Engineering • Numpy • pandas • Matplotlib	Tools: Linux/Unix • MATLAB • Bash

PROFESSIONAL EXPERIENCE

Full Stack Developer (Volunteer) , <i>Sante Imanitè</i> • Develop and maintain full-stack web applications supporting humanitarian, education, and mental health initiatives using modern web technologies. • Design and implement new platform features while integrating APIs, databases, and third-party services to improve scalability and user experience. • Troubleshoot production issues and optimize application performance, accessibility, and reliability across multiple platforms.	06/2026 – Present
Desk Supervisor/Instructor , <i>Central Rock Gym</i> • Lead instructional climbing sessions for participants of all ages while maintaining a safe, engaging learning environment. • Train and mentor new staff, strengthening onboarding consistency and day-to-day operations. • Deliver high-volume customer service while maintaining safety standards in a fast-paced environment.	07/2020 – Present
Attendant/Route Setter , <i>RIT Outdoor Education</i> • Managed climbing facility operations while enforcing safety procedures and equipment standards. • Designed and set climbing routes that balanced creativity, difficulty progression, and user experience. • Collaborated with teammates to maintain an engaging and dynamic climbing environment.	01/2024 – 05/2025

PROJECTS

Clinical Decision Support LLM , <i>CRA UR2PhD Program</i> • Developed an LLM-powered clinical question-answering system using Mistral to assist with oncology research and evidence retrieval. • Designed and refined prompt engineering strategies to improve factual accuracy and reduce hallucinated responses. • Synthesized peer-reviewed oncology literature to strengthen evidence-based response generation. • Presented research findings and demonstrated the system at the 2025 RIT Undergraduate Research Symposium.	05/2025 – 07/2025
Game Discovery & Recommendation Platform , <i>Principles of Data Management</i> • Designed and developed a full-stack application using Java and PostgreSQL to manage and query a large relational game database. • Implemented dynamic search functionality using SQL queries across multiple game attributes and relational tables. • Built a recommendation engine to surface trending games based on user activity and gameplay trends.	01/2024 – 04/2024
SheRides , <i>Hackathon</i> • Developed a responsive front-end web application using HTML, CSS, and JavaScript during a 24-hour hackathon. • Integrated the HERE Maps API to provide real-time location tracking and route visualization. • Collaborated with a multidisciplinary team to design and deliver a functional prototype within 24 hours. • Awarded Best Digital Humanities Hack at the 2023 Women in Computing Hackathon.	03/2023 – 03/2023
Dare to Drive , <i>Hackathon</i> • Developed backend gameplay systems in C# using Unity for an educational game promoting awareness of impaired driving. • Integrated an external API to dynamically generate personalized in-game obituary content based on player actions. • Collaborated on gameplay mechanics and user experience to maximize educational impact.	02/2023 – 02/2023

LEADERSHIP & INVOLVEMENT

Team Co-Captain , <i>RIT Rock Climbing Club</i> • Organized practices, coordinated team events, and supported competition logistics. • Secured sponsorships and partnerships to expand club opportunities and competitive participation.	04/2024 – 05/2025
Program Ambassador , <i>RIT Computing Exploration</i> • Guided prospective and current students through academic pathways within computing disciplines. • Represented the program at outreach events while communicating opportunities to diverse audiences.	08/2023 – 05/2025
